Economics & Business
Asian Studies & Chinese Language
Sociology & Anthropology
Urban Studies & Geography
Communication
Literature & Arts
Philosophy & Religion

TRANSFORM YOUR EDUCATION
China occupies a key role in international relations and finance, yet faces challenges related to balancing economic growth with quality of life. You’ll examine a wide range of current issues through courses at East China Normal University (ECNU) and complete an independent study project in your area of academic interest. Chinese language study (offered at all levels) will enhance your engagement with daily life in Shanghai.

EXPLORE CHINA
You’ll have plenty to see and do in Shanghai, a fascinating city with a rich history and culture. Ultra-modern skyscrapers rise up across the river from colonial buildings that reflect an earlier era of the city. Packed in throughout Shanghai are thriving communities built by migrants from China’s rural areas, drawn to Shanghai’s economic opportunities. Courses frequently include field trips. ECNU organizes extracurricular activities, cultural events, and day trips, as well as an excursion to another city, such as Hangzhou.

Learn more at ACM.edu/Shanghai.
Embark on an immersive cultural and academic experience in China’s financial center and deepen your understanding of modern Chinese society.

The Associated Colleges of the Midwest’s Shanghai: Perspectives on Contemporary China program guides you in taking full advantage of living and learning in this exciting, cosmopolitan city.
