

Botswana: Development in Southern Africa

Elective courses at the University of Botswana

Once you arrive at the University of Botswana (UB), you will confirm your choice of elective. The full course list is available a few weeks before the start of the semester as part of the Undergraduate Academic Calendar. If you find a course listed in the Undergraduate Academic Calendar that you are interested in taking and it is not listed on this sheet, you're still welcome to sign up for it.

Please keep in mind that courses at UB are taught much differently than at your home college. In addition to your elective being in an academic area of interest to you, taking this course is also an experience in UB educational culture and you should embrace the experience as much as possible. Please take these into consideration when selecting your elective.
