WHY ACM?
ACM offers academically strong and culturally immersive programs, which are grounded in the liberal arts and sciences, with several distinguishing features:
- Opportunities to pursue your individual interests through independent study projects, hands-on research, and internships
- Small program size, with close faculty mentoring and distinctive opportunities
- Place-based learning that encourages community and cultural engagement
- A long history of students from your college participating in ACM programs, with academic credits that transfer and ease in the use of Financial Aid
